Trade-marks Journal

Vol. 63 No. 3215

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

HERE. Maps for Life.

GOODS

(1) Computer software allowing users to search and determine the physical location of goods, objects, people, places, buildings and points of interests (POIs); location-aware software applications for the purpose of locating goods, people, places, buildings, points of interest (POIs) and for obtaining traffic information; computer software providing public transport timetables and routes; computer software providing traffic and parking information; computer software providing navigation information; computer software providing map information; computer software providing travel information, tourist information, shopping information, Points of Interest (POIs) information, food and drink information; downloadable software in the nature of a mobile application for displaying and sharing a user's location and finding, locating, and interacting with other users; computer software to be used for viewing, posting, uploading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing electronic maps on mobile phones, smart phones, and connected vehicles; computer software in the field of global positioning systems, maps, public transport, traffic and travel, namely software for providing, updating, displaying and manipulating roadway, geographic, map, direction, travel, public transport and traffic data, for use on mobile phones, smart phones, computers and connected vehicles; computer software in the field of global positioning systems and maps, namely computer software and software applications for operating global positioning system (GPS) receivers, global positioning system (GPS) transmitters and for operating navigational instruments, namely, compasses and GPS-enabled mobile devices, and satellite navigational apparatus, namely, global positioning system (GPS)-enabled mobile devices; computer software in the field of global positioning systems and maps, namely software for providing web-based access to location-based and map-based software applications, for mobile phones, smart phones, computers; computer software and software applications for sharing information on social networking websites; vision recognition software, namely, software for obtaining an augmented reality view of buildings and places in a given area and for highlighting points of interest, objects, activities, and public transport routes in a given area; geo-localisation software; location recognition software; buildings and objects recognition software; digital maps; telematic in-vehicle communication systems for providing wireless vehicle navigation and tracking; computer software application programming interfaces (APIs) for use in developing software applications; pre-recorded compact discs with software for the purpose of providing, updating, and displaying roadway, geographic, map, direction , travel and traffic data, other than prerecorded CDs and DVDs containing music or movies; software development tools, namely software development software and software development digital documentation and guides, namely, computer software for assisting developers in creating program code for use in multiple application programs and electronic publications regarding computer software development; software development software used to create and use digital maps and databases; computer software for use in mapping services; mapping software applications.

(2) Location-aware software applications for the purpose of locating goods, people, places, buildings, points of interest (POIs) and for obtaining weather information, contextually-relevant information, contextually-relevant advertisements; computer software providing weather information ; computer software and hardware allowing the remote control and command of vehicle parameters , namely, vehicle engine on/off status, heating system, locking system, tire pressure, fuel tank capacity, washer fluid capacity and oil level; computer hardware related to global positioning systems, maps; computer software to be used for viewing, posting, uploading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing electronic maps on tablets, computers, connected watches, connected glasses, wearable computers, connected cameras, connected sensors, and connected clothing; computer software in the field of global positioning systems, maps, public transport, traffic and travel, namely software for providing, updating, displaying and manipulating roadway, geographic, map, direction, travel, public transport and traffic data, for use on tablets, connected watches, connected glasses, wearable computers, connected cameras, connected sensors, and connected clothing; computer software in the field of global positioning systems and maps, namely computer software and software applications for use with location-aware and context aware mobile devices, for use with location-aware and context aware wearable devices, for operating navigational instruments, namely , GPS-enabled wearables, and satellite navigational apparatus, namely, global positioning system (GPS)-enabled wearables; vision recognition software, namely, software for obtaining an augmented reality view of buildings and places in a given area and for highlighting people and traffic; navigational instruments, namely global positioning system (GPS) receivers and transmitters , compasses.

SERVICES

(1) Compilation and systemization of traffic information and data into computer databases; compilation and systemization of map information and data into computer databases; computerized on-line retail store services in the field of software applications for use with computers, mobile phones, smart phones; wireless telecommunications services, namely services to deliver location-based roadway, geographic, map, direction, travel, public transportation and traffic data as well as location-based audio digital files, text digital files, image digital files, map digital files, personal timetable information, video digital files, text messages, image messages, video messages and audio messages via wireless networks for use with mobile telephones, tablets, cellular telephones and computers, these services not being cable and satellite television broadcasting services and not being transmission of movies and television series and programs via the Internet, mobile devices or similar technology; providing access to a collection of computer software by means of global computer networks; providing access to an online platform, namely a database containing a collection of maps; satellite transmission, wire transmission, wireless transmission and wan (wide area network) transmission of maps, these services not being cable and satellite television broadcasting services and not being transmission of movies and television series and programs via the Internet, mobile devices or similar technology; providing access to databases in the field of traffic, parking, navigation, mapping, travel, tourism, weather, shopping, Points of Interest (POIs), food and drink, general health and fitness information; providing access to an online platform, namely a database containing a collection of data and pictures in the field of maps, public transportation, tourism, travel and traffic; providing multiple user access to GPS navigation information; transport, traffic and travel information services; tourist information services; services of geo-localisation, namely, providing downloadable applications for mobile phones, wearable computers, smart wearable arm bands, smart wearable sweat bands, smart wearable wrist bands, smart wearable head bands, connected clothing, connected footwear, connected

headgear, smart phones, smart watches, personal digital assistants, computers and tablets for locating goods, buildings, people, places and points of Interests (POIs); directions and route guidance services; providing mapping, navigation, traffic and point-of-interest information via telecommunication networks, cellular telephones and wireless navigation devices; design and development of computer software; providing on-line [non-downloadable] software for displaying and sharing a user's location and finding, locating, and interacting with other users; providing information relating to computer software, meteorology and weather from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information networks; providing information relating to maps-driven and location-based software applications from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information network; providing information relating to software for use as an application programming interface (API) and to software development tools from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information networks; providing technical information in the field of computer software and software applications development from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information networks; providing technical information in the field of software development tools, API's (application program interface) and technical resources from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information networks; providing information relating to software applications for public transports timetables and routes from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information networks; providing information relating to software applications for traffic and parking information from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information networks; providing information relating to software applications for navigations, travel and maps from searchable indexes and databases of information, including text, electronic documents, databases, graphic and audio visual information, by means of global computer information networks; map creation services; providing temporary use of on-line non-downloadable software for use as an application programming interface (API) for use in developing software applications; providing temporary use of on-line non-downloadable software development tools, namely software development software and software development digital documentation and guides for assisting developers in creating program code for use in multiple application programs and electronic publications regarding computer software development; software as a service [SaaS], namely, for the provision of location-based, map-related, navigation-related, traffic-related, weather-related, vehicle management and public transport-related information; software as a service [SaaS] featuring location-based, map-related, navigation-related, traffic-related, weather-related, vehicle management and public transport-related software; providing weather information; mapping services.

(2) Advertising services for the benefit of third parties; rental of advertising space; wireless telecommunications services, namely services to deliver location-based roadway, geographic, map, direction, travel, public transportation and traffic data as well as location-based audio digital files, text digital files, image digital files, map digital files, personal timetable information, video digital files, text messages, image messages, video messages and audio messages via wireless networks for use with wearable computers, connected watches, connected glasses, personal digital assistants, wearable GPS sensors, wearable health monitoring sensors, wearable fitness activity monitoring sensors, wearable presence sensors and cameras, these services not being cable and satellite television broadcasting services and not being transmission of movies and television series and programs via the Internet, mobile devices or similar technology.

GOODS

Class 01

(1) Chemicals for industrial use, namely, chemicals for oxidizing sulfides and pyrophorics, chemicals for treating benzene, chemicals for emulsifying and demulsifying hydrocarbons, chemicals for de-oiling solids, chemicals for absorption of hydrocarbon vapors into liquids, chemicals for degassing of industrial equipment; chemicals for use in odor control, degassing, and volatile organic compound control; enzyme preparations for use in the oil refinery industry, chemical industry, and manufacturing industry and surfactant based compositions as raw materials for use in decontamination; chemicals for neutralizing contaminants, namely, ammonia for industrial purposes; chemical additives, namely, additives for refinery solvents, additives for hydrocarbon solvents, and additives for petrochemical solvents; chemical compositions and chemical solvent additives for industrial use for degassing of tanks, vessels, reactors, piping, pipelines, and other industrial equipment.

Class 03

(2) Cleaning preparations for industrial use, namely, cleaning preparations containing chemical compositions and solvent additives for cleaning, decontaminating, and degassing of tanks, vessels, reactors, piping, pipelines, and other industrial equipment.

Class 07

(3) Equipment in the nature of cleaning machines for industrial tank, vessel, pipeline, and containment cleaning; machines and machine parts for degassing, namely, pressure vessels, centrifugal separators, oil and gas separators, centrifugal stage separators, traps, knockout vessels , flash champers, centrifugal expansion separators, expansion vessels, scrubbers, and filters.

Class 11

(4) Equipment for odor control, decontamination, and degassing, namely, thermal oxidizers for airborne volatile organic compound control and odor control, vapor recovery units for catalytic oxidation, industrial vacuum truck gas scrubbers and industrial liquid scrubbers for removing solid or liquid particulate matter from the air.

SERVICES

Class 35

(1) Plant turnaround business management, namely, preparing decontamination procedures, drawings, and timelines for turnarounds.

Class 37

(2) Maintenance and cleaning of industrial equipment, namely, tank, vessel, piping, pipeline, and reactor processing equipment; consultancy in the fields of facility turnarounds in the nature of cleaning industrial facilities, and industrial equipment maintenance; consultancy regarding cleaning of industrial equipment, namely, tanks, vessels, piping, pipelines, and reactors; cleaning of pits, ponds, and containments; pipeline, tank farm, and product terminal cleaning; sludge extraction, namely, robotic sludge extraction in the nature of mechanically removing scale and sludge from tanks, vessels, piping, pipelines, reactors, pits, ponds, and product terminals; cleaning of industrial equipment, namely, cleaning of tanks, vessels, piping, pipeline, and reactors.

Class 40

(3) Treatment of materials, namely, chemical and waste treatment of sulfides, hydrocarbons, pyrophorics, benzene, sludge, crude oil, fuel oil, decanted slurry oil, sour water, slop oil, light end products in the nature of liquefied petroleum gas, kerosene, and aircraft fuel, finished products in the nature of petroleum, naphtha, diesel fuel, heating oil, motor oil, asphalt, gasoline, and wastewater; sludge extraction, namely, robotic sludge extraction for the purpose of treating soil and water by removing sludge; waste stream treating, namely, processing sludge streams for coker injection; treating waste hydrocarbons, namely, processing waste hydrocarbons to break emulsions , perform two-phase liquid and solid separations, and perform three-phase oil, water, and solid separations; waste and water treatment services, namely, sludge separation and dewatering in the nature of centrifugal sludge separation and dewatering; decontamination of industrial equipment, namely, decontamination of tanks, vessels, piping, pipeline, and reactors; decontamination in the nature of degassing services, namely, chemical degassing, marine degassing, refinery and petrochemical degassing, and thermal oxidation gas removal; consultancy in the field of degassing, namely, chemical degassing, marine degassing, refinery and petrochemical degassing, and thermal oxidation gas removal; environmental remediation services and consultancy, namely, treatment of waste in the nature of controlling volatile organic compounds, contaminants, and waste; consultancy regarding treatment of chemicals, gas, and waste materials; decontamination of hazardous materials, waste, chemicals, and volatile gases; consultancy in the field of environmental remediation services; consultancy in the field of degassing, processing, and decontamination of industrial equipment. decontamination of hazardous materials, sludge waste, and chemicals in pits, ponds, and containments; pipeline, tank farm, and product terminal decontamination of hazardous materials, volatile organic compounds, sludge, waste, and gases; decontamination in the nature of degassing of pipeline, tank farm, and product terminals; consultancy regarding treatment of chemicals, gas, and waste materials; waste processing of pits, ponds, and containments.

Class 42

(4) Engineering services, namely mechanical, electrical, chemical, petroleum, petrochemical, and oil and gas engineering; consultancy regarding engineering activity.

Trademark Description

The representation of the trade-mark depicts five perspectives of the same trade-mark. The trade-mark consists of the colour green as applied to the whole visible surface of the particular bottle shown in the drawing and the colour red as applied to the particular bottle cap shown in the drawing. On the cap, JJ&S - John Jameson & Son Limited appear in beige and are surrounded by a beige circle. The trademark also consists of a two-dimensional label applied below the bottle cap on the front side of the bottle. The colours darker green, beige, black and red are claimed as a feature of the trade-mark insofar as they appear on the two-dimensional label. In particular: The label below the bottle cap is darker green with a vertical beige label on the front of the bottle and a red medallion with a beige outline and writings. On the medallion the following words are written: JJ &S - John Jameson & Son Limited in beige. The trade-mark also consists of a two-dimensional label applied to the middle of the bottle on the front side of the bottle. The colours beige, gold, black , red, green are claimed as a feature of the trade-mark insofar as they appear on the two-dimensional label. In particular: The label in the middle of the bottle is beige, with a golden outline. The term 'JAMESON' is black. The letters of the word 'JAMESON' have a golden outer contour. Underneath the word 'JAMESON' appears a red shield, crossed by diagonal gold stripes, the whole design having a thin black outline. The boat above the shield is red and golden with a thin black outline. Under the shield, the ribbon is red and gold and the terms 'SINE METU' are black . The lower portion of the label consists of a black rectangle, with a red medallion. All elements within the medallion are beige. In the middle of the strip, the terms 'JOHN JAMESON & SON' are beige. Back of the bottle: under the red cap, there is a red shield, crossed by diagonal gold stripes, the whole design having a thin black outline. The boat above the shield is red and golden with a thin black outline. Under the shield, the ribbon is red and gold and the terms 'SINE METU' are black . The label in the middle is beige, with a golden outline. The term 'JAMESON' is black. The lower portion of the label consists of a green rectangle.

BRAVE VISION

Image Description (Vienna)
- One triangle
- Triangles with dark surfaces or parts of surfaces
- Letters presenting a special form of writing
- Letters linked to a figurative element -- Note: Letters representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object are classified in division 27.3.
- Black
- Yellow, gold
- White, grey, silver
- Blue

Trademark Description

The name (logo) BRAVE VISION mainly appears in two colours, namely 1- the combination of letters (BRAE) in black, and the letter V and the word VISION in yellow; 2- the combination of letters (BRAE) in white, and the letter V and the word VISION in yellow. The logo will also occasionally appear only with the word BRAVE without the word VISION next to it. If the colour of the letter V changes, the colour will be the same as the word VISION. If the colour of the letter V changes, it is exclusivel so as to match the colour of the eyeglass lens. For example : if the lens is blue, the letter V will appear in blue on the glasses as well as on the advertising featuring these glasses. Otherwise, the letter V and the word VISION will always appear in yellow, while the rest of the logo remains white or black.

Image Description (Vienna)
- Two lines or bands
- Vertical lines or bands
- Wavy lines or bands, zigzag lines or bands
- More than two arrows
- Arrows forming a circle, an arc of a circle or a ring

Trademark Description
A vertical wave pattern with curved ends on the left and a vertical wave pattern with curved ends on the right with white space between each wave. Both a mirror copy of each other and giving a very vague outline of a human brain. A circle with an opening positioned in the middle of and underneath both vertical waves with arrows on the tips of the circle opening. A slight pointy gap facing left in the bottom of the circle. An arrow with a slight gap in the middle of the arrow positioned inside the opening of the circle pointing upwards.
